IV LEAD MEMBER SITE EVALUATIONS (BDR)

Site evaluation and preparation of the Baseline Documentation Reports (BDR) for Applications #002 - #004 is proceeding. Exceptionally cold weather and snow was hampering their final preparation. Application #005 was received and recorded. The next step in the process would be the determination of an assessed value by the Town Assessor, if the property were to be placed into a land conservation easement.

The ECB also discussed various kinds of other programs used by towns to encourage landowners to participate in a land conservation easement program. It was decided that Diane Rohl would draft a letter to the Town Supervisor, subject to approval by ECB members, informing him of other options that the Town may wish to consider.

VI ELMA PDR GRANT - STATUS

Bryant Zilke, designated Project Manager for the Grant, stated that the Town has yet to receive the Contract from NYS Agriculture and Markets Division which will allow them to go ahead with the process.

VII RIGHT TO FARM LAW

On September 1, 2004 the Town of Elma passed a Resolution essentially declaring its support of the agricultural industry and the protection of farmland. Bryant Zilke passed out a copy of the Resolution. He also distributed a sample of the Town of Clarence Farm Law Chapter 96, and Erie County Local Law No.1-1999 Erie County Right to Farm Law. He asked that ECB members take time to familiarize themselves with these documents as examples of comprehensive local laws attempting to preserve and support farming. He also suggested that since Elma has a Resolution in support of farmland protection, it would be good to inform the public by installing road signs at strategic locations in the

Town. Chairman Zilke will investigate further to determine size, cost, potential locations, etc. and report his findings to the ECB at its April meeting.
